A software developer create computer programs.
A doctor's assistant look after patients in the doctor's office.

b) I like traveling and I like also helping people.
Secretary: Stressful, very awarding
Doctor's assistant angering the answering the phone, love working with outpatient there story's be better than the Trillers on the TV,
Master plumber, all in the family
Physiotherapist: he think it's good when the people say Ideal so much better thank you
Live gard: Keep fit
Software developer he love programming, he can't have a live with not computers
She think it's very cool when you can say I help to build that, she everywhere see numbers and love there
Social worker: he know he doing the right job when he can help at her people
Musician: She love classing music and love working with the singers, the best for her is performing in front of an audience
Landscape gardener: It's great to do things with his hands and love it outside because he alway sitting inside on the computer

c) I think doctor's assistant is a very stressful job and you always have to du something.
A musician I think have very relaxed job.
When you be very grandly outside I think landscape gardener is very cool job for you.
What also a very stressful job is is social worker. You must always help the people with thinks which they can no longer do.
