

Textbook page 78 A5

a)

1. Skywalker's work on high building's and skyscrapers.
2. The job as a Skywalker is so dangerous because they can fall down when a strong wind comes.
3. Smoke-jumpers are people that jump out of a plain and put out fires in wild places.
4. Smoke-jumpers parachute from plains then they cut down trees or dig trenches.
5. Snake-milkers extract venom from the most dangerous snakes - cobras and rattlesnakes. The venom is used at hospitals when someone has been bitten by a snake. The venom is sold for 1000 dollars.
6. The IIP track the location of icebergs. They make safe routes and they sometimes tow an iceberg out of the area.
