

TB p.85 Choosing an elective

Hi Malcolm,

How are you? I need some advice about electives at school.

You see, I can't decide which elective to choose. I could choose a sport, like soccer, but I wouldn't

Be very good because I hurt my foot last week playing basketball. Spanish could also be possible, but I wouldn't even order food in Spanish when I visited my friend in Columbia last year, so I probably shouldn't choose Spanish.

I think I would choose either computer science or automotive technology. Computer science would be interesting because I love working with computers, but then it would be interesting learning about cars if I choose automotive technology. What would you do in my situation?

Thanks for your help,

Jake
