

TB p.85 P6

Hi Malcolm,

How are you? I need some advice about electives at school.

You see, I can't decide which elective to choose. I shouldn't choose a sport, like soccer, but I couldn't be very good because I hurt my foot last week playing basketball. Spanish could also be possible, but I could even order food in Spanish when I visited my friend in Columbia last year, so I probably wouldn't choose Spanish. I think I could choose either computer science or automotive technology. Computer science should be interesting because I love working with computers, but then it could be very interesting learn about cars if I chose automotive technology. What would you do in my situation?

Thanks for your help,

Jack
