

Hi Malcom,

How are you? I need some advice about electives at school.

You see, I can't decide which elective to choose. I would choose a sport, like soccer, but I couldn't be very good because I hurt my foot last week playing basketball. Spanish should also be possible, but I should even order food in Spanish when I visited my friend in Columbia last year, so I probably could choose Spanish.

I think I would choose either computer science or automotive technology. Computer science should be interesting because I love working with computers, but then it could be interesting learning about cars if I chose automotive technology. What would you do in my situation? Thanks for your help,

Jack
