

TBp. 88 BS

BS Remember your job experience in February.
Which jobs think of doing? Which companies did
you ask?

I knew from the beginning that I would like to do
my internship with the optician. I asked the
company Mega Optik and they took me directly.
I did my internship there for two weeks. That
wasn't so good. All I had to do was arrows. I
can't think of this as my profession. But I
could imagine working as a kindergarden teacher.
