Teenagers and the media

Think about your own media use

- Create a mind map with the media you use.

- Compare your media usage to a friend or sibling of yours
 - ↳ What media does he/she use?
 - ↳ Is he/she using media differently?
 - ↳ How much media do you use in comparison?
 - ↳ He uses snapchat, Instagram and WhatsApp to chat with friends. Youtube and tiktok because of his boredom
 - ↳ No we are both the same to stay in contact with friends. But he still uses snapchat and Tiktok

↳ In comparison to the whole day, I use a lot of social media. When I do homework to be reachable as an example or even if I have nothing ~~to do~~, I'm online. Almost around the clock. If I had to guess I'm active 4 hours a day, if you calculate the breaks.
