

## Working with the Text

### 2b

HI p 41 no 2

~~A typical~~/**The average** teenager in the UK spends seven hours a day in front of a TV, phone or computer screen. About 60% of teens watch ~~more than~~/ **at least** 20 hours of TV per week. What are the ~~good and bad things about~~/**pros and cons** being a screenager? Well, if you are ~~good and confident~~/**comfortable** with digital technology, you can do lots of things and help other people too. You can get information and ~~give other people~~/**share** information. Some teenagers just can't stop ~~going on the internet~~/**surfing the net**- ~~it's like a drug~~/**They're addicted!**
