p.93 P 11

Elisa said that today was the last day of her work experience in the doctor's office of Dr. Lang.

She said that the last weeks passed quickly and that she had a lot of fun.

Elisa said that the two weeks were exhausting but totally interesting.

She said that she could ~~imagine~~ imagine to make an apprenticeship in this department.

She said that she liked it to work with many people and that she could help them.

Elisa said that she would love to make a longer work experience by a dentist in summer.

She asked her aunt if she knows a dentist where you could make a work experience.
