

# The American Way of Life

1.

I can see in the picture a poster with a happy family in a car and the phrases "World's highest standard of living — There's no way like the American way". In front of the poster are standing poor looking and black people with buckets, bags and baskets in a line. I would say the picture is from the 1950s.

2.

The American way of life is not exactly defined but it mainly means individualism, freedom, luck and affluence. It is alike the American dream. The American dream means that everybody can become rich through hard work.

I think the poor people at the picture are immigrants who heard from the American way of life and the American dream, and now they want to live in America.
